

## Deployment Area Conditions Questionnaire

\_\_\_\_\_ **Limnocorral**

\_\_\_\_\_ **Wave-Hydraulic Barrier**

- |  |  |
|--|--|
| 1. Condition of the water:                                     | Calm _____ Moderate _____ Stormy _____                                     |
| 2. Movement of water:  | None _____ Slow _____ Fast _____   |
| 3. Wind Conditions:  | Strong Wind _____ Moderate Wind _____<br>Height of waves _____ feet/meters |
| 4. Rise and fall of lake level:                                | Seasonal _____ Wind action tide _____                                      |
| 5. Depth of the deployment site:                               | Depth _____ Feet _____ OR Meters _____                                     |
| 6. Lake bottom conditions:                                     | Rocky _____ Sand _____ Clay _____<br>Soft Organic Sediment _____           |
| 7. Any driftwood in the area?                                  | YES _____ NO _____   |
| 8. Is the water used for:                                      | Boating _____ Fishing _____ Other _____                                    |
| 9. Is there waterfowl in the area?                             | YES _____ NO _____   |
| 10. Limnocorral testing period:                                | All Season _____ Seasonal _____<br>Removed for winter _____                |
| 11. Vegetation:  | How high _____ How thick _____   |
| 12. Is a cover required?                                       | YES _____ NO _____   |
| 13. Is a screen required?                                      | YES _____ NO _____   |
| 14. Are there muskrats or beavers in the area?                 | YES _____ NO _____   |
| 15. Other conditions that may be relevant to the testing site. |  |
